PROFESSIONAL SUMMARY

Project manager and product delivery leader with 10+ years of experience across SaaS, AI, enterprise software, and client-facing technical delivery. Known for shipping products end-to-end, leading scoping calls, coordinating delivery across teams, and translating business requirements into production features. Built and delivered AI-native workflows for FlowLaunch, shipped 50+ projects across 4 countries, and maintained 100% client retention. Strong background in product engineering, requirements gathering, front-end development, and team mentoring.

CORE COMPETENCIES

- Project delivery, client communication, requirements gathering, stakeholder management, scope definition
- SaaS / B2B product delivery, AI product workflows, release coordination, quality ownership
- Front-end and product engineering: React, Next.js, Node.js, TypeScript, Tailwind CSS
- Enterprise software systems: Electron, Supabase, MySQL, MongoDB, SQLite3, Firebase, AWS S3, Vercel
- AI tools and APIs: Claude Code, Cursor, GPT-4, Gemini, multi-LLM integrations

SELECTED PRODUCT WORK

Supabrief - AI brief generation SaaS built on Next.js, Supabase, and multi-LLM workflows (Claude, GPT-4, Gemini).

DocuSwift AI - AI-assisted product workflow focused on document and operational productivity.

Outreach AI - AI-powered workflow for structured outreach and automation.

QMS Total - ISO 17025 audit + ERP desktop application for enterprise labs using Electron, React, and SQLite3.

CalForms / LabZ / Rnexus - Desktop product suite for enterprise clients, delivered across compliance and operations use cases.

Sites60 - Website builder platform shipped with UI ownership and iterative product delivery.

PROFESSIONAL EXPERIENCE

Project Manager | FlowLaunch

June 2023 - Present | Hyderabad, India

- Own scoping calls, delivery coordination, weekly updates, and renewals for client-facing projects.
- Shipped 50+ projects across 4 countries with 100% retention through disciplined execution and communication.
- Built an AI-native delivery model using Claude Code, Cursor, and Gemini to help fresher teams ship production features faster.
- Recent deliveries include Supabrief, QMS Total, Lab Z, CalForms, MVPwords, and HireBuddy, plus 10+ web platforms for clients.

Stack: Next.js, React, Node.js, TypeScript, Tailwind, Electron, Supabase, MySQL, MongoDB, SQLite3, Firebase, AWS S3, Vercel, Resend, Razorpay, Claude Code, Cursor, GPT-4, Gemini APIs

Product Engineer | UI/UX & Team Lead | Ravulapati Techub Pvt. Ltd.

May 2022 - June 2023 | Hyderabad, India

- Shipped UI/UX for 5 products end-to-end in code rather than Figma, reducing handoff loss and speeding iteration.
- Built a hiring and training pipeline for interns and placed them on client engineering teams under senior mentorship.
- Worked across product delivery, UI ownership, and team coordination for web and PWA applications.

Stack: React, Next.js, TypeScript, Tailwind, Node.js, PWA

Product Engineer | VideoForm

March 2020 - May 2022 | Hyderabad, India

- Built the first version in Vue.js and Node.js, then led a full rewrite to React and Tailwind with a custom design system.
- Scaled the product from 100 to 1,000+ active users in 60 days through product-led onboarding, UI improvements, and growth support.
- Supported hiring and onboarding as the company scaled and contributed to marketing site delivery in Webflow.

Stack: React, Vue.js, Node.js, Tailwind CSS, Webflow

Frontend Engineer & Team Mentor | GreyMetrics

August 2018 - March 2020 | Hyderabad, India

- Built the full dashboard UI in AngularJS and Bootstrap and owned major UI/UX decisions across the product.
- Mentored freshers, ran code reviews, and helped establish frontend development practices within the team.
- Contributed to MRR growth from \$1K to \$8K-\$10K during the tenure, supporting the product's acquisition by a UK buyer.

Stack: AngularJS, JavaScript, HTML, CSS, Bootstrap

Product Engineer | UI/UX Research & Development | Aquo Digital

January 2017 - August 2018 | Greater Hyderabad Area

- Designed and built client-facing UI across multiple projects using HTML, CSS, JavaScript, and jQuery.
- Handled requirements discussions, translated business needs into working interfaces, and helped recruit/train freshers.

Stack: HTML, CSS, JavaScript, jQuery

Technical Recruiter | Vuesol Technologies, Intone Networks, CodeForce 360

2012 - 2016 | Early career in US IT recruiting, technical screening, and hiring for enterprise contracts; built a strong foundation in people judgment and communication.

EDUCATION

Bachelor's Degree, Electrical and Electronics Engineering - Jawaharlal Nehru Technological University (2007 - 2011)
